PROFILE

Multidisciplinary developer and designer (ALIEN.DEV) building AI-powered websites, conversion-focused AI UGC ads and clean brand design for startups and brands. Confident across code, AI, mobile and visual design — shipping things that look great and actually sell. Open to remote work.

AI websites: landing pages with AI chatbots and prompt-engineered copy from \$150.

AI UGC ads: short-form ads with AI-assisted script, styling and editing that drive action.

Brand design: logos and flyer sets in Photoshop from \$50.

SELECTED PROJECTS

- BeKind Hotel & Suites

WEBSITE

Modern booking-style site turning mobile visitors into bookings — rebuilt responsive, fast and conversion-focused.

React · Tailwind CSS · Vite
- ShopWave

MOBILE APP

Shopping app built and packaged as an installable Android APK — clean UI, ready to install on any device.

Android · UI Design · APK
- AI UGC Ad Campaigns

VIDEO ADS

15-second short-form ads — AI-assisted script, product styling and editing tuned for social feeds to stop the scroll and drive action.

UGC · AI Script · Editing
- Chow Heaven

WEBSITE + BRAND

Full restaurant website with interactive menu, gallery and ordering flow — plus a menu/promo flyer brand suite.

HTML · CSS · JavaScript
- Digital Wedding Invitation

WEBSITE

A complete digital invitation — hero, story, gallery, schedule and RSVP — personal and elegant.

HTML · CSS · JavaScript
- Brand Flyer Sets

DESIGN

Social, print and menu-ready flyers designed in Photoshop for BeKind Hotel, Abena Foods and Chow Heaven.

Photoshop · Branding

WHAT SETS ME APART

Full-stack coverage meaning clients get **strategy + AI + code + design** from one person — faster turnaround, one consistent vision, and work calibrated to sell, not just to look good.
